

# That's Life

**Paul Van Dyk**

Life isn't made so everything is right  
Life isn't made so everything is right  
Life isn't made so it's always alright  
    But that is alright  
Life isn't made what you have in mind  
    Life will not always be too kind  
Sometimes you wonder what's really behind  
    What's really behind  
    But that is alright  
Life isn't made so everything is right  
Life isn't made so everything is right  
Life isn't made so it's always alright  
    But that is alright  
Life isn't made what you have in mind  
    Life will not always be too kind  
  
Sometimes you wonder what's really behind  
    What's really behind  
    But that is alright  
Life isn't made so everything is right  
Life isn't made so everything is right  
Life isn't made so it's always alright  
    But that is alright  
Life isn't made what you have in mind  
    Life will not always be too kind  
Sometimes you wonder what's really behind  
    What's really behind  
Sometimes you wonder what's really behind  
    What's really behind  
    But that is alright
