

Just A Phase

Incubus

I am bottled fizzy water
And you were shaking me up
You are a fingernail running
Down the chalkboard I thought I left in third grade
Now my only consolation
Is that this could not last forever
Even though you're singing and thinking how well you've got it made Who are you?
And will you be through
Yeah, it's just a phase
It will be over soon
Yeah, it's just a phase
Yeah, it's just a...phase Call it women's intuition
But I think I'm on to something here
Temporaryism has been the black plague
And the Jesus of our age
I know that I sound opinionated
Maybe biased and quite possibly jaded
But sooner than later they'll be throwing quarters at you on the stage Who are you?
And will you be through
Yeah, it's just a phase
It will be over soon
Yeah, it's just a phase
Yeah, it's just a, phase
