

Single By Choice

The Bangles

Single by choice
Never marry, never ever divorce
Listen to the solitary voice
Tell you I'm single by choiceSingle by choice
Never marry, never ever divorce
Listen to the solitary voice
Tell you I'm single by choiceI know what you're thinkin'
She can't be complete
'Til the right kind of man
Come sweep her off her feet
Well I've been there before
Times four or times five
With the right kind of man
Barely made it out aliveI'm single by choice
Never marry, never ever divorce
Listen to the solitary voice
Tell you I'm single by choiceAlone but not lonely
I've made up my mind
And chosen the life
It's a solitary kind
I got sun in my mornin'
Got love in my day
And I don't waste one moment
Wishin' it awaySingle by choice
Single by choice
Single by choice
Single by choiceSingle by choice
Never marry, never ever divorce
Listen to the solitary voice
Tell you I'm single by choiceSingle by choice
Single by choice
Single by choice
Single by choice
