Face Off

The Briggs

I think I've gone insane
What I tried to say
Doesn't matter now
You didn't listen anywaySay it to my face
Show me what you got
You never show me who you are
Only who you're notWoah, what did you say?
I'll let you think
While I stand here
And waitWho are you to judge?
Those who know too much
You try to bring me down
But I'm never gonna budgeI'll say it to your face
I'll show you what I got
This is who I am
You can't make me what I'm notWoah, what did you say?
Let you think while I stand here and wait
Let you think while I stand here and wait
WaitHey, what did you say?
What did you say?
Doesn't matter now
I won't listen anywaySay it to my face
Show me what you got
You never show me who you are
Only who you're notWoah, what did you say?
Let you think while I stand here and wait
Let you think while I stand here and wait
Let you think while I stand here and wait
