

Face Off

The Briggs

I think I've gone insane
What I tried to say
Doesn't matter now
You didn't listen anyway Say it to my face
Show me what you got
You never show me who you are
Only who you're not Woah, what did you say?
I'll let you think
While I stand here
And wait Who are you to judge?
Those who know too much
You try to bring me down
But I'm never gonna budge I'll say it to your face
I'll show you what I got
This is who I am
You can't make me what I'm not Woah, what did you say?
Let you think while I stand here and wait
Let you think while I stand here and wait
Wait Hey, what did you say?
What did you say?
Doesn't matter now
I won't listen anyway Say it to my face
Show me what you got
You never show me who you are
Only who you're not Woah, what did you say?
Let you think while I stand here and wait
Let you think while I stand here and wait
Let you think while I stand here and wait
