

# Fly

**Sarah Fimm**

Carry on  
Do as you will do  
What's it gonna take  
These mirrors always breaking down  
Resounding in the sound Moving on  
An easy thing to do  
Glide as you would sail  
The water never fails us  
How  
In swollen beating eyes  
We're white lace strings of time  
Best let the feather fly Carry on  
Do as you will do  
Dance like you're a child  
And never bring the level down  
Find beauty, bring it out  
From blind and fading eyes  
Best let the feather fly
