

Bitch Came Back

Theory of a Deadman

The b***h came back
the very next day oh,
the b***h came back
thought she was a goner but the b***h came back
she couldnt stay away

Dont cha know the b***h came back?

I like her so much better when she's down on her knees
Cause when she's in my face that's when im starting to see
That all my friends are laughing thinking that we belong
well she's so f***ing stupid that she's singing along

The trouble with girls is they're all the same
Forget the diamonds and pearls they just want a ring
Before you know it your like a dog on a leash
well you can try and change the world but you wont change me

The b***h came back
the very next day oh,
the b***h came back
thought she was a goner but the b***h came back
she couldnt stay away
(She doesnt get it!)

Dont cha know the b***h came back?

There she goes again just always breaking my balls
No matter what i do somehow its always my fault
she says i must be cheatin cause i turned off my phone
but thats the only f***ing way she'll leave me alone

The trouble with girls is its never enough
Love to complain and they never shut up
They like to tell you the way it ought to be
Go on and tell the world but dont tell me

The b***h came back
the very next day oh,
the b***h came back

thought she was a goner but the b***h came back
she couldnt stay away
(She doesnt get it!)
Dont cha know the b***h came back?

It aint a joke when i say i wanna throw youo out
(I really mean it) -2X
Well look who's laughing now

The b***h came back - 6X
She couldnt stay away

The b***h came back
the very next day oh,
the b***h came back
thought she was a goner but the b***h came back
She wont stay the f*** away!

The b***h came back
the very next day oh,
the b***h came back
thought she was a goner but the b***h came back
she couldnt stay away
(She doesnt get it!)
Dont cha know the b***h came back?

The b***h came back
the very next day oh,
the b***h came back
thought she was a goner but the b***h came back
she couldnt stay away
(She doesnt get it!)
Dont cha know the b***h came back?
