

So Gone

Anita Wilson

It's incredible to me, the way You make me feel inside
All of the things that you do, they just make me loose my pride
Tried so many times before, but I never ever got it right
But now I have you in my life and it's because of Your sacrifice

My life is saved

I could say that I'm not the same

I've been changed because of You

I won't hesitate to give You praise for the rest of my days

I am so gone over you

So gone over You

So gone over You

So gone over You

So gone over You

I can't even remember the way it used to be before You captivated my heart
I just don't wanna think about my days without You, I would be torn apart

Day dreaming, I'm being extremely overtaken by Your love

Forever I'm clinging to You, I would do anything to be where You are

My life is saved

I could say that I'm not the same

I've been changed because of You

I won't hesitate to give You praise for the rest of my days

I am so gone over you

So gone over You

So gone over You

So gone over You

So gone over You

All I wanna do is spend my time with You,

I'll never leave, no not me

Brings me joy just to be right here with You

I'll never leave, no not me

You are more than I could ever want

More than I could ever need

I waited all my life for a love like Yours, Yours

Always in mind, always in my heart

All I wanna do is spend time with You

Only you....

Every day I just wanna be where You are Lord, Every day I just wanna hear Your voice ooh

I'm listening Lord

I searched high and I searched low

Doesn't matter where I go
All I want the world to know
There is no one like you
