

Knockout

[Nat Baldwin](#)

You can't kill my spirit
Or take back all its living
F*cked her for a slow death
Burning while still wet
This life's not a subject to put on display
Lock the safe in a story
Pressing play while riding
Buried in the shrouds of glory's dead success
I knocked you out
You knocked me out
Victory for charity comes to an end
Without a doubt I knocked you out
Fighting for a promise
Glass jaws couldn't undress
It all comes to the surface
With strength as it rises
Light a match to erase a lifetime leading here
Holding my own eyes in his
Nothing left but two fists
Buried in the shrouds of glory's dead success
I knocked you out
You knocked me out
Victory for charity comes to an end
Without a doubt I knocked you out
You knocked me out
I am knockout
