

# Holy War

## Toto

Run... they say it's Armageddon  
Hide... we're very near the end  
Fear... the promise of a nation  
That's getting harder to defend Come in, come in  
Relax, relax  
There's no secrecy  
Please take more than I have  
I know, I know  
You are, you are  
Trying to scare me  
I've got nothing to spare  
Save all the sh\*\* about spreading freedom  
It sounds like scam to me Holy war...  
Show me what you've been concealing  
All in the name of peace and love  
What are we fighting for?  
I thought the point was healing  
Clearly I was dead wrong Truth... beyond your comprehension  
Lies... above and far beyond  
Have faith that every execution  
Will be televised onto your phone Come in, come in  
Relax, relax  
There's no privacy  
'Cause I am what I am  
I know, I know  
You are, you are  
Trying to shock me  
I don't easily scare  
Spare all the sh\*\* about spreading freedom  
It's a shameless lie to me Holy war...  
Show me what you've been concealing  
All in the name of peace and love  
What are we fighting for?  
I thought the point was healing  
Clearly I was dead wrong (Instrumental) Holy war...  
Show me what you've been concealing  
All in the name of peace and love  
What are we fighting for?  
I thought the point was healing

Clearly I was dead wrong Holy war...  
Show me what you've been concealing  
All in the name of peace and love  
What are we fighting for?  
I thought the point was healing  
Clearly I was dead wrong
