

My Love

Jessica Simpson

Deepest of your love is my love
The promise of your life is my life
Wherever you go, I will follow
Where your head lays, I will stay
Until my dying day
Always you and I, my love
Always your tears I cry, my love
If ever one soul were meant for mine
I have been blessed by the kiss of a lifetime
Always I'll praise the skies, my love, for my love
Everything I am is your love
Everyday I live is for your love
Wherever I go, you will follow
Where my head lays, you'll stay
Until my dying day
Always you and I, my love
Always your tears I cry, my love
If ever one soul were meant for mine
I have been blessed by a kiss of a lifetime
Always I'll praise the skies, my love, for my love
Always you and I, my love
Always I'll praise the skies, my love, for my love
For my love
