

Wash Your Face

Oscar and the Wolf

Come surround me
the way, the ways with your god
but the crawl, crawling, you wash your face And your beauty burns, then you return
I call your name
And then we'll wonder around into your dreams So wash your face, love
So wash your face, love
So wash your face, love Best things are driving and (?)
Really, there's a way, don't be afraid to join right here And your beauty burns, then you return
I call your name
And then we'll wonder around into your dreams So wash your face, love
So wash your face, love
So wash your face, love
So wash your face, love
So wash your face, love
So wash your face, love
So wash your face, love
Come surround me the way, the ways with your god
Come surround me the way, the way with your god So now you see it's all alright So now you see it's all alright
So now you see it's all alright
Don't you see? Don't you see?
So now you see it's all alright
So now you see it's all alright
So now you see it's all alright
So now you see it's all alright
So now you see it's all alright
