

# In Dreams

## Broken Twin

I know the silence of a room  
From vast nights consumed  
In sheets and skin  
I know the windows when they're closed  
The blinds when they're unrolled  
For no light gets in  
It shows in the distance you grow  
The sorrow you show  
And when it shows  
It shows in the mirrors you see  
In dreams that cannot be  
Wide awake  
It shows in a stranger you saw  
A face from afar  
You thought you knew  
It shows in the distance you grow  
The sorrow you show  
And when it shows
