Promises Kept

Champion

Alone in a crowd, but we're still standing strong
With X'ed up fists and sing alongs
Times like these are what we live for
These days are more than we'd ever hoped forWe're still here, and we'll never forget the words we said
Time flies by, and the promises made will stay with us
Through our livesWe're not finished yet, that's rightThey tried to break the best of us
But still our hearts are true to promises kept
