Come An' Get It

Whitesnake

Are you woman enough
To take a man like me?
Baby, I know what you got
You make it easy to seeNow I wanna give you my loving
Believe me, babe, it's true
Maybe more than you bargained for
But now it's up to youSo if you want it, come an' get it
I got something for you
If you want it, come an' get it
I'll leave it up to youAre you a women who takes
Anything you want?
Or the kind who says that you do
Then tell me later you don't?Now I wanna give you my loving
I knew the moment we met
You gotta take me as you find me, baby
Cos' what you see is what you getSo if you want it, come an' get it
I got something for you
Now, if you want it, come an' get it
I'll leave it up to you, it's up to you, baby, oohAre you woman enough
To take a man like me?
Baby, you know what I got
I make it easy to seeSo if you want it, come an' get it
I got something for you
If you want it, come an' get it
I'll leave it up to youNow if you want it, come an' get it
I'll leave it up to you
Now if you want it, come an' get it
I got something for youNow if you want it, come an' get it
I got something for you
If you want it, come an' get it
I'll leave it up to youNow if you want it, come an' get it
I got something for you
If you want it, come an' get it
