In Good Time

We Shot The Moon

She always cheers me on
When she says that i'm the one.
Yes I know
What that means
To her.
Her friends all married young
And then fell out of love.
Yes I know
What that means
To her.
I am scared every day
When two hearts are at stake.
It's the strong vs the weak
With a chance they both might break.
Oh but on her stereo
There's a song we claim to know.
It goes Love can change your minds
In good time.
She works a 9 to 5
Returns home with a sigh.
Is this life, really mine
Is this life?
She looks to the west coast

As a place to call her home.
She moved twice, in a year
She moved twice.
I am scared every day
When two hearts are at stake.
It's the strong vs the weak
With a chance they both might break.
Oh but on her stereo
There's a song we claim to know.
It goes Love can change your minds
In good time.
New years eve, she told me..
I am scared every day
When two hearts are at stake.
It's the strong vs the weak

With a chance they both might break.
Oh but on her stereo
There's a song we claim to know.
It goes Love can change your minds
Only if we give it time.
I'll be tryin'
She'll be callin'
In good time.
