

Woodburning

Toad the Wet Sprocket

Say what I need, I kick you down
No I'm fine, don't you hang around
And I find myself here in another home
Where everything moves so slow
So tired Take the longest day, throw it all away
I can't stand it but I can't do anything
Every day's the same, nothing ever change
I can't stand it but I can't do anything You should know by now
We're all liars
Take me where you go
Only higher Take the longest day, waste it all away
I can't stand it but I can't do anything
Every day's the same, nothing ever change
I can't stand it but I can't do anything
Can't do anything Anything you want
Anything you want
Anything Take the longest day, throw it all away
I can't stand it but I can't do anything
Every day's the same, nothing ever change
I can't stand it but I can't do anything
I can't stand it but I can't do anything
I can't stand it but I can't do anything Here in another home
Where everything moves so slow
So tired
