I started rolling at the early age I heard it paid  
So I made an investment, all my money was spent on buying drugs  
And giving hugs to broads checking for bud  
Because I'm dodging the law I never saw and may I kept a kind the rest was raw  
I had a proper ass [unverified]  
I stole the show I didn't know I'd be judged  
That's on the low and Pastor Troy praise God  
Cause I concealed and my intentions to spill who ever will  
Please step up and be killed  
Don't think I'm real just to show that blood is red  
Ain't no way till you finished just 16 shots in ya head  
Y'all scared  
What's up, big mouth, big talk, big game  
Teacher pet, taking aim, pump the tech, I'm taking aim

Teacher pet, taking aim, pump the tech, I'm taking aim  
What's up, big mouth, big talk, big game  
Teacher pet, taking aim, pump the tech, I'm taking aim  
What's up, big mouth, big talk, big game  
Teacher pet, taking aim, pump the tech, I'm taking aim  
In the land of ATL, run shelves, crack sells for clientele

Brutally your head swell all who oppose get sent to hell  
Midrange make ways to stay paid with AK's  
Sin folks reload or enter heavy scape ways We probably get robberies wit' 12 gauge technology  
So I kill blood spill I show no local modesty  
Drop em G pay a fee doing combat killing enemies  
Shot heads with infra reds so much death fuck a injury I specialize and funeralize all the guys my clique despise  
Full clip busted in between your eyes symbolize that its surely mine  
When I bust my shells hoe leave you stuck like Velcro  
Throwing blows and elbows them tie that trick to the railroads Bruise the bitch then shoot the trick  
Now who's the snitch to get crucified  
Clips and shit be super thick to inform you we ain't new to this  
Blaze weed my tendencies bury MC's with jealousy  
Assign to kill and steel I keep Pastor preaches eulogy
