Give Myself a Party

Don Gibson

I've got a lot of memories to last me the rest of my life
So if you don't want to love me, baby, that'll be all right
I'm gonna take all the lovin' that I have for you
Gonna take all the loneliness, sit right down with the bluesI'm gonna give myself a party and serve old memories
Give myself a party, think of how it used to be
Remember all the happiness that we once knew
I'm gonna give myself a party, just me and the bluesA few of your love letters, a photograph or two
A gift you gave on my birthday with words of I love you
There's a lots of things to think about when you're happy, feeling blue
So I'm gonna take all the loneliness, sit right down with the bluesI'm gonna give myself a party and serve old memories
Give myself a party, think of how it used to be
Remember all the happiness that we once knew
I'm gonna give myself a party, just me and the blues
