

# Chiromancer (feat. Steff Keoppen)

## Copeland

forever yours  
forever yours  
and i can feel you in the morning sun  
you want me like no other one  
forever yoursand i can feel you in the morning sun  
you want me like no other one  
forever yours  
your voices fade and i call your name  
cause i'm still here and the only thing that's left for me is listening  
its the only way i make it through the night  
are we just fools in ourselves, living in the moment  
and i just died aside living alone herein a storm of quiet voices you're the only one that i can ever findjust say  
you're mine and the fork would lift cause the only thing that's missing now is everything  
its the only way i make it through the nightwe just fall in ourselves, living in the moment  
and i just died aside living alone herein a storm of quiet voices you're the only one that i can ever findand i can  
feel you in the morning sun  
you want me like no other one  
forever yours  
your voices fade and i call your name  
cause i'm still here and the only thing that's left for me is listening  
it's the only way i make it through the nightare we just fools in ourselves, living in the moment  
and i just died aside living alone herein a storm of quiet voices you're the only one that i can ever find  
just say you're mine and the fork would lift cause the only thing that's missing now is everything  
you're the only way i make it through the nightwe just fall in ourselves, living in the moment (i'm dying)  
and i just died aside living alone here (i'm dying)  
in the storm of quiet voices, you're the only one that i could ever find
