

None But My Own

Machine Head

I am only nothing
I am only this
I am just a man with these two fists You've asked forgiveness
You've asked respect
Only something that you did forget All you gave, you had planned to take
Beat upon me but I won't break
Stripping everything from me, no Will to me your anger
Will to me your rage
Will to me your lies, your sufferings Not a man of virtue
Not even a man
Will not take the hate dealt from your hands Years of pain I will take and hone
Manifest with your broken bones
My heart bleeds for none but my own, my own Burn, burn I am only nothing
I am only this
I am just a man with these two fists You're not a man of virtue
Not even a man
Cannot take the hate dealt from your hands Years of pain I will take and hone
Manifest with your broken bones
My heart bleeds for none but my own, my own Motherfucker burn, burn My heart bleeds for none but my own
My heart bleeds for none but my own
