Imagination

Jes

I sit alone
Wishing that you were here
I pick up the phone and no one's even there
But I hear your voice
And it sounds so clear
And I'm telling you just how I feel
Wishing that you'd come and make it so real
(Are you just a vision in my mind?)
Have you really right here tonight?
(Are you gonna make everything right?)
Why you standing here inmy door
Are you the one that I wished for, yeah

I wished upon a tonight
That you will grant my wish tonight
And take me to the one in my imagination
I wish I may, I wish i might
Have a wish I wish tonight
Take me to the one in my imagination

Now you will mean more than the word to me
If we could be more than a fantasy
I do believe one day that you will be reality
Just you and me
Being everything I knew me could be
(Are you just a vision in my mind?)
Have you walked into my life?
Are you really right here tonight?
(Are you gonna make everything right?)
Standing right here in my door
Are you the one that I wished for?

I wished upon a tonight
That you will grant my wish tonight
And take me to the one in my imagination
I wish I may, I wish i might
Have a wish I wish tonight
Take me to the one in my imagination

I wished upon a tonight

That you will grant my wish tonight
And take me to the one in my imagination
I wish I may, I wish i might
Have a wish I wish tonight
Take me to the one in my imagination

When you're in my thoughts
(I know in my heart)
You were made for me
That's why we have to start
(Making our love so true and...)
Making a love for two
(So make my dreams come true tonight)

I wished upon a tonight
That you will grant my wish tonight
And take me to the one in my imagination
I wish I may, I wish i might
Have a wish I wish tonight
Take me to the one in my imagination

(Are you just a vision in my mind?)
Did you really walk in my life?
Are you really right here tonight?

I wished upon a tonight
That you will grant my wish tonight
And take me to the one in my imagination
I wish I may, I wish i might
Have a wish I wish tonight
Take me to the one in my imagination
