

# You'll Always Be Loved (By Me)

Bryan White

Well, this old world can get you down  
And leave you spinning 'round and 'round  
Not knowing what's for real  
On this crazy wheel is part of the deal  
Baby, there's only one sure thing I know  
I never want to let you go  
I'll be here by your side on this circus ride  
Through every drop and climb 'til the end of time  
When everything is moving fast  
It's hard to stay together  
I know that we can make it last  
We'll find a way to weather  
Any storm heaven sends  
We'll see it through to the end  
We've got it made if you can just believe  
You'd always be loved by me  
And when you go to bed at night  
And I'm not there to hold you tight  
I'll love you from afar, no matter where you are  
I'll count the days 'til when I'm with you again  
When everything is moving fast  
It's hard to stay together  
I know that we can make it last  
We'll find a way to weather  
Any storm heaven sends  
We'll see it through to the end  
We've got it made if you can just believe  
You'd always be loved by me  
And when we're growin' old  
I'll be the one to hold you close  
When everything is fading fast  
We'll face the end together  
We'll find a way to make it past  
One final storm to weather  
And even after the end  
I will be with you again  
We've got it made if you can just believe  
You'd always be loved by me  
You'll always be loved  
By me  
By me  
When everything is moving fast  
We'll find a way to make it last  
I will be with you again  
I will be with you again  
I will be with you again
