

Drink More Beer

Rodney Carrington

Advisory - the following lyrics contain explicit language:

If your jobs about to kill ya, but you cant afford to quit it

The best advice that I can give ya is drink more beer

When your truck keeps overheatin'

Cuz your radiators leakin'

Grab the brown bag at your feet

And drink more beer

Drink more beer

Drink more beer

Take the can in your hand and be damned if your troubles dont up and disappear

If you've had that one too many

let someone else steer

So you can drink more beer

Why dont you drink more beer

When your inlaws come to visit

And your house feels like a prison

Stay real close to the fridge and drink more beer

When your woman wont stop naggin

About you gettin on the wagon

Lie and say your cuttin back and drink more beer

Drink more beer

drink more beer

Take the can in your hand

and be damned if yur troubles dont up and disappearIf the lady you're makin eyes at

dont look like Britney Spears

Drink more beer

And she will

Drink more beer

Everybody sing, Drink more beer, drink more beer, yeah

Take the can in your hand and be damned if your troubles dont up and disappear

Cuz bud makes you wiser, bud light makes you lighter and a wine cooler makes you.....Willy put that wine cooler down!

Drink more beer

Drink more beer

When the bar closes down , we'll head into town to the quick stop and see my old friend Amir, can I help you?

And we'll buy more beer, so we can drink more beer

Drink more beer

We'll drink a whole lot more beer.....
