

# Voices

## Mike Gordon

The world is spinning so much faster  
Fling me from pole to pole  
A car pulls up and drags me downtown  
To try to make up diamonds from some coal  
Disco Balls and Revolving Doors  
And then I see you though my eyes are growing round  
I start to tell you I'm on the fast track and I don't need you here to slow me down(Chorus)  
Then I hear the voices in my head  
Telling me to stay right here and stand  
The choir of guardian angels asking me to take a deeper breath  
Telling me to slow down and live before I'm gone and deadI see you from marry-go-round now  
lifts me like a flying saucer ride  
down on the ground you're like a tiny ant  
i see you holding blood from where I glide(Chorus)  
And then I hear the voices in my head  
telling me to go back down instead  
the choir of guardian angels asking me to take a deeper breath  
telling me to slow down and live before i'm gone and dead
