## Merriment

Finished looking for the answers  
Now I'm looking for the questions  
I can look into you mirror and see inside your head  
See my reflections and this is what I've bled  
I look right into your mirror but I can't see me

Chorus:

Everything's gone backwards  
Nothing's what it seems  
I awake from my nightmares  
Smash the mirror, smash the dreams  
Backwards into future

Now you're making up for lost time  
I hide under the shadow and try to hide my name  
Eyes that will question and this is what I mean  
I look back into the mirror  
But still don't see me

Chorus (2x)

Smash the mirror, smash the dreams (3x)

Chorus (2x)

Smash the mirror, smash the dreams (3x)
