

Somebody Loved

The Weepies

Rain turns the sand into mud
Wind turns the trees into bone
Stars turning high up above

You turn me
Into somebody loved

Nights when the heat had gone out
We danced together alone
Cold turned our breathe into clouds
We never said what we were dreaming of

But you turned me
Into somebody loved

Someday, when we're old and worn
Like two soften shoes
I will wonder on how i was born
The night I first ran away from you

Now my feet turn the corner back home
Sun turns the evening to rose
Stars turning high up above

You turn me into
You turn me into
You turn me into
Somebody loved
Somebody loved
(woo hoo woo hoo)
Somebody loved
