The Day You Won the War

White Rabbits

He took anything that you offered him
Telling where to begin, giving attitude
Uhu every day you won the war
Did you feel in pain?
My head started to ...All that we've got
Got something they wanna hurt
Uhu every day you won the war
Did you feel in pain?
Come on, let's...Taking the time,
Taking the time, that's OK
Still like a child.
Can't even feel it
And all I want to do is searching
Does it make you feel...
How could you know?
Uhu, uhu
