

# CRS Craft

**Diana Krall**

Never trust the stars  
When you're about to fall in love  
Look for hidden signs before you start to sigh  
Never trust the moon  
When you're about to taste his kiss  
He knows all the lines and he knows how to lie  
Just wait for a night  
When the skies are all bare and then  
If you still care  
Never trust your dreams  
When you're about to fall in love  
For you're dreams may quickly fall apart  
So if you're smart  
Really smart  
Only trust your heart
