# Cold December

## REEMES

Outside it's cold, it's freezing,
The landscape is covered in light,
The heat from the fire warms everyone,
The only question : is it already done ?

It's a cold December,
Snow is falling down,
It's a cold December,
When the snow falls down,

Outside it's nine below zero,
The darkness enter wind is coming,
The children returning to their houses,
But the home let's have to say out, ~

It's a cold December,
Snow is falling down,
It's a cold December,
When the snow falls down,

It's a cold,It's a cold,
It's a cooold December,
It's a cold,It's a cold,
It's a cold December,

It's a cold,It's a cold,
It's a cooold December,
It's a cold,It's a cold,
It's a cooold December,
