Calculate The Apocalypse

Scar Symmetry

Awaiting a cosmic collision
The igniting of the visible world
Unpredictable asteroid impact
Monumental blast wave unleashedImminent undoing of this world
Unveils tragedy mixed with relief
As we give in to the endAwaiting the atmospheric entry
Calculate the crater formation
The massive fireball expansion
Lost to thermal radiationImminent undoing of this world
Unveils tragedy mixed with relief
As we give in to the endEstimate time of impact
Calculate the fatal fact
Estimate the cataclysm
Calculate the apocalypseTechnology, facing defeat
An industry tainted with deceit
Activity done secretly
Chosen survivors find securityImminent undoing of this world
Unveils tragedy mixed with relief
As we give in to the endEstimate time of impact
Calculate the fatal fact
Estimate the cataclysm
Calculate the apocalypse
