# For Fuck's Sake

## Nailbomb

Advisory - the following lyrics contain explicit language:

Time and again we've been told
Still it's ignored, who'll go first?For fuck's sake, leave me alone
Live your life, I'll live mineWinning doesn't count, just don't take part
Close your eyes, stuff your faceDon't tell me what to do, we live in different worlds
Suffer and pain has built my brain
Never understand, see it your way
I don't have to be like anyone elseCan't waste my time trying to destroy you
Can't waste my time, want to avoid you
You always envy what you don't have
All your hate, don't put me down, life goes onTime and again we've been told
Still it's ignored, who'll go first?For fuck's sake, leave me alone
Live your life, I'll live mineWinning doesn't count, just don't take part
Close your eyes, stuff your faceDon't tell me what to do, we live in different worlds
Suffer and pain has built my brain
Never understand, see it your way
I don't have to be like anyone elseCan't waste my time trying to destroy you
Can't waste my time, want to avoid you
You always envy what you don't have
All your hate, don't put me down, life goes on
