So Much 2 Say

Take 6

Gotta make this quick
Gotta make it stick
Better begin
So listen up
Won't you give an ear
To hear a hip communiquSo much 2 say
So little time
(And it flies when you're having fun, so)Takin' it slow
(Only got about a minute)
Ain't apropos
(Not too many seconds in it)
And none too spareA consequence some are unaware of
As many through sequential and historic ages
Hold your horses
(Have been)
No time for excess chitter-chat mess
(What?)So much 2 say
(Oh)
So little
(Time)If you can be attentive
The talk'll be preventive
A cure for cataclysmic strife
The rule is not exemptive
But it is redemptive
A formula for richer lifeSo much 2 say
So littleTime is the indefinitely limitable durational
Within eventuality distinguished from infinity
We hath not much time and yet we haveSo much 2 say
So much 2 say
So much 2 sayMeaningful moments
Are far and few between
You gotta seize the meaning
(If you see what I mean)
Say what?
