

Cry Your Heart Out

Olly Murs

Do do do do do do do
Ooh
Do do do do do do do
Do do do doooooHey! I'm back again
now its sunny in my mind
And I don't miss the rain
Used to feel it all the time
Put away my troubles
I left them all behind
Now every time I look up
Clear blue skies Here you come again
like a cloud in my view
Your blocking all of my light
Like only you could do You tried to say sorry
Girl, drop it drop it
You really need to stop it
I wanna change the topic now 'Cause every time we end up in the same silly situation
Yeah
And did you really think that you could run
And I'd be here waiting Your turn to cry your heart out
Let me stop before you start out
Don't need your explanations
No
'Cause I don't really want to know
About
The way you're feeling now
'Cause your the one who got time out
So go,
And you can cry your heart out Do do do do do do do
Do do do do do
Do do do do do
Ooh I go ahead
And keep them all in from your eyes
Crocodile tears
they were never fooled the wise
I wised to your game girl
But Now your out of lies
Love me
Be blind

But I'm dead to you kind
Here you come again
like a cloud in my view
Your blocking all of my light
Like only you could do
You tried to say sorry
Girl, drop it drop it
You really need to stop it
I wanna change the topic now
'Cause every time we end up in the same silly situation
Yeah
And did you really think that you could walk
And I'd be here waiting
Ohhhh
Your turn to cry your heart out
Let me stop before you start out
Don't need your explanations
No
'Cause I don't really want to know
About
The way your feeling now
'Cause your the one who got time out
So go,
And you can cry your heart out
Cry cry cry
It's time for you too
It's up already,
done enough to put out the fires you left behind
Yeah
Why why why?
Everything you ever did
Is come and gone
You,
Look at me now
Didn't want you
So, it's your turn
Your turn to cry your heart out
Let me stop before you start out
Don't need your explanations
No
'Cause I don't really want to know
About
The way your feeling now
'Cause your the one who got time out
So go,
And you can, and you can and you can
Your turn to cry your heart out
Let me stop before you start out
Don't need your explanations
No
'Cause I don't really want to know
About

The way your feeling now
'Cause your the one who got time out
So go,
And you can cry your heart out
