

# Songbird

## Moulettes

Never, never never  
Had so far to travel  
Through the dust and the gravel  
And through the green forest  
That covers the land

And that is what is always calling me onwards  
Leave you only with fondness  
And thanks for your kindness  
As I take forth your hand

### CHORUS

But a beautiful songbird  
Is singing to me  
So sweet and so bonnie is she  
That the flowers turn to greet her  
And if I were to meet you tomorrow  
For the very first time  
Would you be a good lover of mine?  
Da dum da dum dum  
Da dum dum da dum dum  
Dum dum dum

Never, never, never had so much to utter  
But a spell in the gutter can work on the tongue  
Make it still in the head

We could talk the hind legs off all of the horses  
In all of the stables and I wish we were able  
And I wish we could stay

### CHORUS

Never, never, never had so much to offer  
So why must we suffer  
And why must it always feel this hard

When the sun is out the grass is greener  
The sweet pea and camellia

The moss and the blossom that maketh your bed

CHORUS

---
