

# Ultimatum

## Shaggy

Ultimatum, badman nuh tek ultimatum  
Go wey, yuh haffi stay If I stay, would you put an end to all the games you play?  
Can you promise me that you will never stray?  
Has to be a new beginnin' from today  
Only way I will stay But if I go, this will be the final curtain of the show  
You have lost the best thing that you ever known  
Guess you have to learn to make it on your own  
Let me know, stay or go Before you go, let's analyze the situation  
I'm a typical Jamaican, why you layin' your frustration on me  
When we met it was a perfect combination  
But you know my reputation, don't know what you were expectin' of me Fight back, you can fight get things a  
go if yuh nuh like that  
'Cause I know that when you leave you come right back  
Your new founded termination sounds to me like desperation  
There's no ground for termination If I stay, would you put an end to all the games you play?  
Can you promise me that you will never stray?  
Has to be a new beginnin' from today  
Only way I will stay But if I go, this will be the final curtain of the show  
You have lost the best thing that you ever known  
Guess you have to learn to make it on your own  
Let me know, stay or go I must admit I have a weakness for these women  
Who a plot like them a villain try the best to separate you from me  
I don't understand just why the hell you're cussin'  
When you knew that she meant nothin', so what if she was your cousin You say, fight back  
How the hell could I resist when she's dressed like that  
Tell the truth I had her leave but she came right back  
Now you heard the explanation, take into consideration  
It was sexual frustration If I stay, would you put an end to all the games you play?  
Can you promise me that you will never stray?  
Has to be a new beginnin' from today  
Only way I will stay But if I go, this will be the final curtain of the show  
You have lost the best thing that you ever known  
Guess you have to learn to make it on your own  
Let me know, stay or go Goodbye, my darlin'  
Baby, baby, tell me why you're in a hurry to leave?  
Goodbye, my darlin'  
See alot I can't believe that this is happenin' to me Goodbye, my darlin'  
Yeah, I know, I made mistakes but this is meant to be  
Goodbye, my darlin'

I promise, I'll do better, baby, stay with me If I stay, would you put an end to all the games you play?

Can you promise me that you will never stray?

Has to be a new beginnin' from today

Only way I will stay But if I go, this will be the final curtain of the show

You have lost the best thing that you ever known

Guess you have to learn to make it on your own

Let me know, stay or go If I stay, would you put an end to all the games you play?

Can you promise me that you will never stray?

Has to be a new beginnin' from today

Only way I will stay But if I go, this will be the final curtain of the show

You have lost the best thing that you ever known

Guess you have to learn to make it on your own

Let me know, stay or go If I stay, would you put an end to all the games you play?

Can you promise me that you will never stray?

Has to be a new beginnin' from today

Only way I will stay But if I go, this will be the final curtain of the show

You have lost the best thing that you ever known

Guess you have to learn to make it on your own

Let me know, stay or go
