

You Waited (Radio Edit)

Travis Greene

You came out of your way
You sat down to speak to me
What amazing grace
That you've shown
So patiently And you
Waited
For me
Just for me
Oh... You called out my name
Knew my past, covered my shame
This amazing grace
You've shown
So patiently
You've shown
So patiently And you
You waited
For me
Just for me
Oh...
You
You waited
For me
Just for me Where would I be
If you left me there
Where would I be
If you left me there
Where would I be
If you left me there
Where would I be
If you left me there But you waited, waited
You waited, waited
You waited, waited
You waited, waited Where would I be
If you left me there
Where would I be
If you left me there
Where would I be
If you left me there
Where would I be

If you left me there You waited, waited
You waited, waited
You waited, waited
You waited, waited
You waited, waited
You waited, waited Where would I be
If you left me there
Where would I be
If you left me there
Where would I be
If you left me there
Where would I be
If you left me there What amazing grace
You've shown
So patiently
You've shown
So patiently And you, you waited
For me
(Just for me)
You, you waited
For me
(Just for me)
