

# True Nature

## Jane's Addiction

Here we go  
Power tripping, your luck is switched  
Oh, so now it's funny  
When it's your turn is to laugh  
Go poke the running joke  
Scoring points with God  
Get no perfect marks  
Man, your grades keep falling  
How you treat the weak is  
Your true nature calling  
Porn chick calls herself a therapist, baby  
Call it what it is  
All the money in the world  
We'll go to war, you backward hero's  
Come to rescue you  
Just to lien on you  
With interests soaring  
How you treat the weak is  
Your true nature calling  
Motherfucker do you really care?  
Motherfucker do you really care?  
Please believe  
We live and breathe  
Through native tongue and poetry  
All these years and we believed, yeah  
Scoring points with God  
Get no perfect marks  
So your grades keep falling  
How you treat the weak is  
Your true nature calling
