

Ball and Chain

Anouk

I know the drill
You got your ball and chain
It holds you down, the circle round
This story stays the sameIt won't be long
And then your heart is frozen
The time has come to break awayYou've got it all
What makes you hesitate?
Don't just wait for things
To blow up in your pretty faceLift the weight
Try not to let it slip away
And you may find yourself againI feel people just don't know you like I do
Why you're making it so hard to see
When there's something wrong
It goes on and onI know the drill
You've got your ball and chain
I found out the second round
That some things never changeOpen my eyes
And let the days come over me
And maybe it will go awayI feel people just don't know you like I do
Why you're making it so hard to see
When there's something wrong
It goes on and onYou'll see not everybody's here
To break your heart
So there is a price to pay
To be someone you're notI know the drill
You've got your ball and chain
I found out the second round
That some things never changeOpen my eyes
And let the days come over me
And maybe it will go away
