## **Ball and Chain**

## **Anouk**

I know the drill You got your ball and chain It holds you down, the circle round This story stays the sameIt won't be long And then your heart is frozen The time has come to break awayYou've got it all What makes you hesitate? Don't just wait for things To blow up in your pretty faceLift the weight Try not to let it slip away And you may find yourself againI feel people just don't know you like I do Why you're making it so hard to see When there's something wrong It goes on and onI know the drill You've got your ball and chain I found out the second round That some things never changeOpen my eyes And let the days come over me And maybe it will go awayI feel people just don't know you like I do Why you're making it so hard to see When there's something wrong It goes on and on You'll see not everybody's here To break your heart So there is a price to pay To be someone you're notI know the drill You've got your ball and chain I found out the second round That some things never changeOpen my eyes And let the days come over me
