

Stay Away From Me

The Living End

I call your name, I saw your face
You didn't turn around, I never heard it
You're taking the lead in my self destruction
When you call my name, I never heard it I waste away my time, I take another line
In my poor sorry mind
I think of what I took from you
But you can't stay away from me Ooh what I need is you
But I just can't stand it
Ooh what I need is you
But I can't face the fact that you know me I call your name, I saw you face
Telling me to stay, I never heard it
I can't help thinking that everyone 'round me
Can't hear what I say, they never heard it I waste away my time, I take another line
In my poor sorry mind
I think of what I took from you
But you can't stay away from me Ooh what I need is you
But I just can't stand it
Ooh what I need is you
But I can't face the fact that you know me I waste away my time, I take another line
In my poor sorry mind
I think of what I took from you
But you can't stay away from me Ooh what I need is you
But I just can't stand it
Ooh what I need is you
But I can't face the fact that you know me
