Give Me The Sky

Fightstar

I'd give the world to you and I mean it
But only if you give me the sky
So I can watch over you all day
And keep the clouds away
The tears roll down from your eyes
And stick to your cheeks like glass
The salt in your mouth
Has dried your words for now
'Cause I'd give the world to you and I'd mean it
But only if you give me the sky
So I can watch over you all day
And keep the clouds away

Prescribe me some time
So I can carry you through the worst of it
Or tell me If I'm just wasting all my time
'Cause I'd give the world to you and I'd mean it
But only if you give me the sky
So I can watch over you all day
And keep the clouds away
All of the lights that guide us on
Will burn so bright tonight
We'll start the clocks
This is our time to live our lives
