

Long Way Back Home

Gordon Lightfoot

From the railhead to the boatyard
From the factory to the farm
From the mine to the mill yard

I've weathered the stormFrom the bar room to the bedpost
I've wasted my days, all I have is my drink
And the time left to think
While time slips awayJust look at my face
When you tell me goodbye
You'll see what I'm after

By the look in my eyeJust walk away and leave me alone
It's a long way back homeNow in case you should ask me
What it is that I've done
I'd say I'm a soldier

Who once had a sonBut my son doesn't know me
That's his right to choose
Oh say, can you see? My best friend is me
I'm a friend I could useJust look at my face
When you tell me goodbye
You'll see what I'm after

By the look in my eyeJust walk away and leave me alone
It's a long way back homeNow the pages have faded
The story grows cold
And the plot falls to ashes
Like the ruins of oldThose rats in my rafters
They're after my shoes
And anything else they can find on the shelf
I've said they could useAnd just look at my face
When you tell me goodbye
You'll see what I'm after

By the look in my eyeJust walk away and leave me alone
It's a long way back home
It's a long way back home
