Why you blushing, forget about them other guys now
I know you aint trying to tell me that you shy now
I realize that youre beauty could intimidate
Them suckers you aint got no business with them anyway
With such a, pretty face big booty, little waistline..
I wanna grind from behind to the base line.
Have a great time, poor yourself a shot girl
Chase it with the lime, now you feeling like a hot girl
I know youre probably used to deal with them wannabes
But honestly I gotta say, im who they wanna be.
I promise all I wanna see is you up under me
And we can disappear whenever, when you wanna leave
Come on I guarantee the ride of your life
Any fantasies on your mind, we can try them tonight[Hook]
Oh yeah sitting here (im looking at you like damn)

Its been killing me all night long, and I wonder(Misses shawty let me tell you what Im thinking bout)

Its the end of the night, and Im thinking you might
Wanna leave the bar, park the car, turn into a porn starYes, Id love to hear about your interests
