

# Don't You Go Walking

## Divinyls

It must be something I don't do with you  
Must be something left for you  
Must be something I don't say  
Left you crying away Don't you go walking  
Don't go walking out that door  
Don't you go walking  
Been said thousand times before  
Don't you go walking  
Don't you go walking out And we've been thru. been thru this before  
Should have seen to. seen to this before  
Wish I knew that/wish I knew you'd stay  
I'm so nervous/ so nervous today What can I do what can I say  
Left you crying anyway  
Do I need to get me someone new  
So you say easier said than done now do Stop that baby x8
