

Let It Go

George Strait

Advisory - the following lyrics contain explicit language:

Life's tough and then you die
And there ain't no rhyme or reason why
It comes right at you so you do what you doLove's great until it's not
Hearts break but the world don't stop
When it rains, man, it pours, you can't change the course
You can wish on a star but if it ain't in the cardsLet it go, sometimes you gotta let it go
Let it all wash on under the bridge, blow it a kiss
Give it a rest 'cause it is what it isTime flies while you save it all up
But someday this'll all be dust
It's all just stuff, it ain't ever enough
And you can't take it with you so you might as well justLet it go, sometimes you gotta let it go
Let it all wash on under the bridge, blow it a kiss
Give it a rest 'cause it is what it isYou never know
What's waitin' just up the road
Sooner or later that sun's gonna shine
Luck will turn on a dime
So, when the good times roll, let 'em roll
But when they don't
Let it goMove on, keep moving 'til you see the light
The one that you've been waiting on
Shining bright in the night
Saying, "Hey there friend, where the hell have you been?"Let it go, sometimes you gotta let it go
Let it all wash on under the bridge, blow it a kiss
Give it a rest 'cause it is what it isYou never know
What's waitin' just up the road
Sooner or later that sun's gonna shine
Luck will turn on a dime
And when the good times roll, let 'em roll
But when they don't
Let it goLet it go, you really gotta let it go
Let it go, sometimes you gotta let it go
Let it go, you really oughta let it go

Let it go
