

# Burnin' Up the Carnival

Joe Sample

Down in Rio were they never had a dime  
Out the gardens were they came to party time  
There's the fever there, we got the carnival  
Everybody does it allWhen we're dancin' we don't think of yesterday  
No tomorrow when we carry on this way  
Happy feelings are the only things we wear  
And nobody really caresWelcome to the carnival  
Come feel what love is  
Wild lights turning in the sky  
And burnin' up the carnivalWhen we're dancin' we don't think of yesterday  
No tomorrow when we carry on this way  
Happy feelings are the only things we wear  
And nobody really caresYou can find me in the madness in the street  
You can find me where the wine is flowing sweet  
I can take you where you never thought you'd go  
And nobody has to knowWelcome to the carnival  
Come feel what love is  
Wild lights turning in the sky  
And burnin' up the carnivalWelcome to the carnival  
Come feel what love is  
Wild lights turning in the sky  
And burnin' up the carnivalWelcome to the carnival  
Come feel what love is  
Wild lights turning in the sky  
And burnin' up the carnival
