

# Black Light

Glenn Hughes & Chad Smith

You fly with the locust  
Down in the western sky line  
But you're out of focus  
In every way you design The crux of the matter  
You've taken the life of my friend  
Her dreams you did shatter  
They're takin' you down to the end You always wanted to be right  
You never wanted to stay  
You are a soul burnin' too bright  
Your guardian angel did say  
Into the black light, you will go  
Into the black light, you will know I hope you can hear me  
You lie alone in your cell  
And you never be free  
You live in your own private hell I know Johnny Lennon, is watching the curse of your fate  
There's too many people  
Too frightened to speak  
Of your hate You are a soul burnin' too bright  
Your guardian angel did say Into the black light, you will go  
Into the black light, you will know  
You always wanted to be right  
You never wanted to stay  
You are a soul burnin' too bright  
Your guardian angel did say Into the black light, you will go  
Into the black light, you will know Into the black light, you will go
