

# Nothing Happening

[Ben Kweller](#)

Like sun through the night  
Just to get it right  
A battle ground at my feet  
An unwinnable fight  
The words we say won't matter anyhow  
Let's focus on tomorrow instead of right now  
Nothing happening  
It's all illusion, it's all illusion  
Nothing happening  
It's all confusion, it's all confusion  
Fames are flying all around  
This room tonight  
Now there's nothing we can do  
To make each other feel alright  
Instead of trying to tell me how to be  
Just focus on tomorrow instead of on me  
Nothing happening  
It's all illusion, it's all confusion  
If we want to keep this love we found  
We got to focus on tomorrow instead of right now  
Nothing happening  
It's all illusion, it's all illusion  
Nothing happening  
It's all confusion, it's all confusion  
It's all confusion  
Nothing is happening, happening  
It's all illusion, it's all illusion  
Nothing is happening, happening  
It's all confusion, it's all confusion  
It's all confusion, it's all confusion  
It's all confusion, it's all confusion
