

Television

Short Stack

I hate this town, Iâ€™m breaking out
I hope you donâ€™t forget me
But youâ€™re with him now, so watch me drown
In hopes you donâ€™t regret me
Girl this game is done cos Iâ€™m the one
Youâ€™re thinking of alone
So I control this and slipped into
Your perfect skin and bones

And then she said..
Close your eyes and let pretend there's
Nothing good on television
Every time you say my name
It brings me back to life

Oh! There's nothing good on
My, my television
My, my, my, television
My, my, television
Oh! there's nothing good on
My, my television
My, my, my, my television
My, my television

And then she said to me the stuff we'll write
With this tonight our love is an illusion
But the night is young, we load our guns
And dream of evolution
While the city sleeps we rule the streets
Our fingers intertwined
And as you melt, I lost myself
In your killer disco eyes

And can you just..
Close your eyes and let's pretend there's
Nothing good on television
Every time you say my name it
Brings me back to life

Oh! There's nothing good on

My, my television
My, my, my television
My, my, television
Oh! there's nothing good on
My, my television
My, my, my television
My, my television

(She says she's coming home tonight)

She says she's coming home tonight

Close your eyes and just pretend there's
Nothing good on television
(She says she's coming home tonight)
Every time you say my name it
Brings me back to life

Oh! There's nothing good on
My, my television
My, my, my television
My, my, television
Oh! there's nothing good on
My, my television
My, my, my television
My, my television
(She says she's coming home tonight)

Close your eyes and just pretend there's
Nothing good on television
Every time you say my name it
Brings me back to life
(She says she's coming home tonight)

Close your eyes and just pretend there's
(My, my television, my, my, my television)
Nothing good on television
(My, my television, my, my, my television)
Every time you say my name it
(My, my television, my, my, my television)
Brings me back to life
